## FENG SHUI ANNUAL LOCKS

Last month, in the September Newsletter, we looked at “twenty year construction locks” and the effect they have on the inhabitants of both homes and businesses. This month, I have listed the annual locks for each time periods. The annual locks, both people and money, only last for a year and cycle back around every nine years. People who have lived or worked in a place for over nine years can look back and see the effects the locks have had on their lives in the past (they may manifest in different forms due to the prevailing elements.) The effects are the same as those for the corresponding twenty year cycles, (see September Newsletter,) but to a lesser degree.

The Chinese found that there are verifiable, repeatable cycles of qi that affect both man and the structures he builds. These cycles are related to both time and space. Goethe said, “Architecture is frozen music.” The shape of that frozen music creates an invisible architectural sound within the building that impacts the subtle energies, and has a direct effect on the physical, emotional, mental and spiritual life of the inhabitants.

The magic of “Flying Star” Feng Shui is that it can mathematically map that esoteric sound and decipher the unseen energies at any place within the structure. It is also able to predict in which twenty year and annual cycles the interior energies become “frozen” or locked.

I chose the accompanying picture of “Fuxi and Nuwa” this month because it originated in the same time period as Feng Shui and is also about creating forms in time and space. FuXi and Nuwa are part of the creation

myth of ancient China and they are always shown holding a compass and square, while wrapped together like a caduceus. Nuwa (left) is the sister and wife of Fu Xi, and is always shown holding the compass while Fu Xi (right) holds the square.

Nuwa also is known for repairing the heavens after the great flood and is thought to be closely related to Noah. The greater planetary cycles are also evident through these myths.

FuXi and Nuwa have a definite masonic connection, both operative and speculative, to the creation and molding of man both within and without and to the structures he builds and dwells within, as does Classical Feng Shui. The whole picture is loaded with incredible esoteric information for creation on all levels!

**Check out the events page.** There is a special Feng shui workshop on Friday, October 19th, from 7:30-9:30 in South Pasadena. Hope to see you there.
